A ONE-NAME STUDY

Norfolk Birth Registration Database: General Register Office - <https://www.gro.gov.uk/>

Civil registration of births, marriages and deaths in England and Wales started on 1 July 1837. Before the government's registration system was created, evidence of births and/or baptisms (and also marriages and death or burials) was dependent on the events being recorded in the records of the Church of England or in those of other various churches.

This collection contains births in Norfolk registered between 1837 and December 1919. For the privacy of anyone that might be living any later records are not published. If you wish to view any later dates visit <https://www.gro.gov.uk/> or contact me and I can send you the relevant database in it's entirety. Full birth certificates can be ordered for a cost of £9.25 direct from their website using the below birth details. Usually when a mothers maiden name is not entered this usually means that the mother was not married so her surname would be "Wharton". I have included the surname's of Wharton, Warton, Whorton and Worton within this database. Each registration district covers various villages, for a list of which villages in those districts visit: <https://www.ukbmd.org.uk/reg/nfk.html>
